

LOGISTICS SOLUTIONS

Whatever your business — Penske Logistics has you covered with state-of-the-art transportation and distribution solutions. We bring industry knowledge, advanced technology and technical prowess to design and implement the most advanced supply chain solutions in use today.

We Are Committed to Your Success

At Penske Logistics, our customers really do come first. We recognize that an investment in your future is an investment in our own. We know the best results are achieved when everyone has an active part in the outcome. When you choose Penske, you choose a partner who is committed to your success.

We Build Solutions That Grow With You

Businesses and markets change. Penske Logistics has the versatility to change as well. We are always thinking up new ideas and creating customized solutions to tackle the challenges you face — today and tomorrow.

We Help You Manage the Unexpected

Contingency planning is in our DNA. Natural disasters, labor disputes and infrastructure failures can lead to delays that may require both short- and long-term solutions. That's why we model and plan for these events. If disruptions occur, we have a plan to minimize the impact.

We Create Visibility Into Your Supply Chain

Penske Logistics can help you harness the power of your data with our ClearChain® technology suite. ClearChain provides visibility, enhances supply chain optimization, drives business results and keeps operations moving.

We Give You a Competitive Advantage

At Penske, we have years of supply chain experience, supported by proven processes and powered by industry-leading technology, which allows our customers to make tactical decisions faster than their competitors.

LOGISTICS SOLUTIONS THAT ARE FAST AND FLEXIBLE

With strategic locations throughout North America, Penske Logistics has the experience and expertise to keep production running smoothly so you can focus on your core business efforts. Penske Logistics offers:

- **Lead logistics (LLP)**
As a lead logistics provider, Penske can direct every aspect of your supply chain, including managing other 3PLs, overseeing transportation management and supervising warehouse operations.
- **Distribution center management (DCM)**
We have decades of experience running efficient and C-TPAT secure warehouses, distribution centers and cross-docks.
- **Transportation and carrier management**
The latest technology and well-established relationships give Penske access to the best carriers.
- **Freight brokerage**
When you have supplemental freight needs, you want to know your freight will reach its destination safely while on time and on budget.
- **Dedicated contract carriage (DCC)**
When you require guaranteed capacity or need to provide a “white glove” level of service to your customers, a dedicated solution from Penske Logistics delivers the level of control you need.
- **Consulting services**
Our engineering experts analyze your unique situation, designing solutions that fit your business needs.
- **Efficient freight network**
With a well-established corridor that stretches from Mexico across the U.S. and into Canada, Penske’s network moves freight quickly and efficiently.
- **Cross-border expertise**
Penske has the relationships and experience to expedite border crossings.
